

### **Amendments to the Specification**

Please replace the paragraph beginning at page 9, line 32 to page 10, line 1, with the following rewritten paragraph:

--The therapeutic agent of this invention is suited for administration once every few days or once every few weeks, ~~and administration once per week is preferred.~~ According to the treatment of the invention, genes are administered noninvasively and therefore, desired genes can be administered as much as the condition demands.--
